

VCE Unit 3, Outcome 1.2: Reading & Responding – *In Cold Blood*

Overview of week

You will find Close Study 5 on website to download. You have two days to complete this.

Due: Tuesday/Wednesday.

Next task will be given Wednesday.

There will be two more Close Studies to do this week.

There may be some other smaller studies also.

Don't forget: SAC is Thursday after next: April 30.

If you finish quickly and want to get ahead, on the "Resources" page on the website there are four files. The first three "Characters", "Themes" and "Interpretations" are all required reading, highlighting and annotating. If not, they will become work for next week.

However, I would strongly advise that you have your three essay topics firmly in mind before you do these tasks.

If you have forgotten which essay topics you are interested in, then I strongly advise you find them and re-read them and choose. This will allow you to narrow the way you read these three files and what you choose to highlight and annotate (only do the stuff that's relevant to your topic!).

By the end of the week, I am going to ask you to whittle your selection down to two different essay topics, and on the day of the SAC, I will either choose one for you, or I will re-write one that is similar to the one/two you have chosen.

Note: exam students will have a different system – we shall discuss.

Please – any questions – fire away.
